REMARKS	

1. On 20 October 1950 it was learned that the Training Department and the Medical Department of the **Main Administration for training** were located at 112 Rudower Chaussee, Berlin-Adlershof. The Medical Department was headed by Chefinspekteur Dr. Mehlmann (fnu). The drug-purchasing section of the department was headed by Kommandeur Krueger (fnu), a former pharmacist. 50X1-HUM
2. The building housing the VP Medical Department can be entered only through a guardroom. Persons calling on the department have to produce an official order covering their mission and turn in their pass or identity card. After a check by telephone, a guard leads **callers** to the office they wish to visit.
3. On 21 October 1950 it was learned that the quarters at the Berlin-Adlershof airfield were still occupied by about 1,000 police. The BTB factory area west of Rudower Chaussee has been included in the VP billeting area. No training activity was observed in the quarters and the airfield area. Much traffic of VP personnel to and from the railroad station was noticed. Most of them carried suitcases and brief cases. There were no special markings on the uniforms of the police observed. VP personnel wore blue-bordered green epaulets.
4. Police vehicles [redacted] were seen at the quarters at the Berlin-Adlershof airfield. 50X1-HUM
